Version:	4.0.11
Release Date:	September 2013
Customer Support:	Contact the Help Desk at (800) 359-0911 option 5 with any questions.

Introduction

This document contains information regarding the current DAQbilling release.
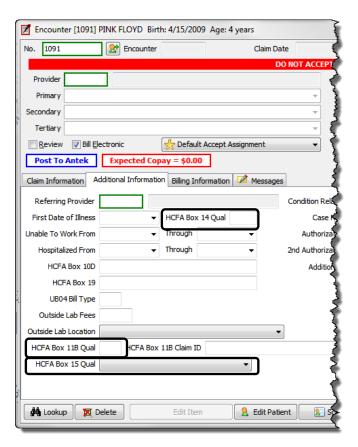

New Features and Enhancements

- CGM DAQbilling was rebranded and our home screen has a new look.

- Additional fields have been added to the Additional Information tab of the Encounter menu in order to accommodate the HCFA1500 changes. These fields are not currently required, and we will send out a message to all customers to inform them of the deadline for the required usage of these qualifier fields:
    - HCFA Box 11B Qualifier
    - HCFA Box 14 Qualifier
    - HCFA Box 15 Qualifier

- All schemas will now show twelve (12) Diagnosis Codes fields.

- We are now using our own in-house Clearinghouse provider, EMEDIX. This will create a more reliable path to verify insurance inquiries.

- A Request Verification option was added to the Scheduler menu.
